DETAILED ACTION

Status of the application

1. Applicants remarks/arguments, and election of group IV with traverse in reply filed on 22nd Sep 2008 is acknowledged.
2. Applicants also elected a species, compound 29 in the reply. Since the elected species is appears to be allowable, therefore, the search extended for the non-elected groups, viz., I-III and V-VII for the claims 1-5. Hence, the restriction for the groups I-III and V-VII has been withdrawn and the groups I-VII are combined into a single group for the examination purpose.
3. Group VIII is drawn to a process for preparing compounds of formula 1a and 1b, and is rejoined with the groups I-VII, because formula 1a and 1b appear to be allowable.
4. Groups IX-XII are considered as non-elected groups.
5. Claims 1-6 are examined on the merits in this office action.

Response to Restriction

6. The applicants traversal of the restriction is on the basis that the "all groups do have in common the same technical feature, namely the diphosphines". This is not found persuasive because of the following reasons:

The group IX claims are drawn to a compound of formula VII which is structurally different from the formula Ia or Ib, and also there is no common technical feature among the groups. For example in the formula VIII, group X is a halogen, whereas X is a secondary phosphino group in the claims 1-5.

Art Unit: 1621

Groups X, XI and XII claims are also drawn to structurally different compound from the formula 1a and 1b, and therefore, a lack of unity between the groups.

Therefore, the inventions are independent or distinct because prior art anticipating and/or rendering obvious one group would not necessarily anticipate and/or render obvious the other group. Hence, there will be a serious burden on the examiner if restriction is not required because the inventions require a different field of search. Therefore, restriction for examination purposes as indicated is proper.

Claims 7-13 are withdrawn from further consideration as not being drawn to an elected invention.

The requirement is still deemed proper and is therefore made FINAL.

Quayle Action

7. This application is in condition for allowance except for the following formal matters:

Claims 1-6 are allowable subject to cancellation of non-elected claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

8. Claims 1-6 are allowable and applicants need to cancel the non-elected claims 7-13.

Art Unit: 1621

The following is a statement of reasons for the indication of allowable subject matter: the closest prior art (US 5,872,273) fails to disclose or teach applicants compounds represented by the formula Ia or Ib in the independent claim 1.
